

Our Innovations, Your Business Solutions

Business Process Automation

A person in a brown suit is shown from the chest down, holding a tablet. The background is a dark blue and green grid with glowing circuitry and a brain-like shape made of circuitry. The overall theme is technology and automation.

INFOTEST LAB is a leading global Information Technology, Consulting and Business Process Automation. We harness the power of Intelligence Automation, Cognitive computing, Cloud, Digital Quality Assurance, IoT Products, Analytics and Emerging technologies to help our clients adapt to the Digitalization of their Business solutions and make them successful. Our Value as a Service (VaaS) strive innovative solutions and a flexible engagement approach significance our customers stay ahead of the curve, drive revenues, and enhance market position.

Smart Library & File Tracking System

RFID Files/Books Tracking System is designed to reduce Manual efforts in maintaining and managing hundreds or thousands of files/books within a library/workplace. Many businesses currently use basic methods to manage files, such as **alphabetical filing, color-coded filing, or barcodes**. RFID file management systems have become increasingly popular and give just-in time employees enhanced visibility, while freeing up time previously spent on **inventory counts or searching for lost documents or Books**.

Hardware Specifications

RFID Passive Tags

RFID Reader

Current Challenges

Location of the Files/Books

Failure to Keep Track of Daily Stocks

Consolidated Stocks Just-in-Time

Library circulation operations and theft detection system

Consume more staff time spent book/file management

Daily transactions and Accuracy of the Reports

Our Solutions

Accurate tracking of sensitive documents

Risk of misplace or theft of document is controlled.

Can keep a record of the holder of the file or document.

Reduction in manual cost & time loss.

Eliminates authorized access to the files/ documents.
